

WEEE Compliance Statement

This statement has been reviewed in accordance with:

- **Directive 2012/19/EU** of the European Parliament and of the Council of 4 July 2012 on waste electrical and electronic equipment (WEEE Recast); and
- **The UK Waste Electrical and Electronic Equipment Regulations 2013 (as amended).**

These regulations aim to reduce the environmental impact of electrical and electronic equipment by promoting reuse, recycling, and proper disposal, and apply to products placed on the market within the EU and UK.

Under the current regulations, Tapeswitch Ltd has evaluated its product range and determined that our products remain **outside the scope** of the WEEE Directive or are **exempt**, for the following reasons:

- **Large-scale stationary industrial tools** Many of our products are components designed specifically for integration into large-scale industrial systems and are therefore exempt under Annex I, Category 6 of Directive 2012/19/EU and Schedule 2 of the UK WEEE Regulations.
- **Fixed installations** Some products are installed as part of fixed systems that are not intended to be placed on the market independently. These are excluded from the scope as defined in official guidance on fixed installations.
- **Component Classification** Products such as ribbon switches, sensing edges, sensing mats, touch pads, and foot switches are classified as **components** rather than standalone electrical and electronic equipment, and are therefore **not subject to WEEE obligations**.

Tapeswitch® Products Covered:

- **Ribbon switches** (All types including DaDo panic strips)
- **Sensing edges** (All types)
- **Bumpers** (All types)
- **Sensing mats - touch pads - foot switches** (All types)
- **Safety mats** (All types)
- **Control units** (All types)
- **Light curtains** (All types)
