YOUR PROJECT : (Description of your application)

For any specific shape or if there are several detection zones, please attach a diagram

REF	CKP	CKP SOLO**	CKP IM	CKP MY PRINT	RKPE	ARMOR	DPM
NUMBER OF PIECES							
MATERIAL	KOROSEAL	KOROSEAL	KOROSEAL	KOROSEAL	SBR (Round button profile)	KOROSEAL	ALUMINIUM
COLOUR to select	BLACK YELLOW	BLACK YELLOW	BLUE	ALL (Customisation from HD file required)	BLACK	BLACK YELLOW	ALUMINIUM GREY
LENGHT IN MM (2400 mm max)							
WIDTH IN MM (1200 mm max except RKP 1500 mm)							
POSITION OF THE CABLE*							
CABLE LENGTH (2000 mm standard WITHOUT ADDITION)							
CONTROL UNIT	OPTION : PRSU4 , Cat3, Pld	INTEGRATED	MANDATORY : PRSU/M2SI	OPTION : PRSU4 , Cat3, Pld	OPTION : PRSU4 , Cat3, Pld	OPTION : PRSU4 , Cat3, Pld	OPTION : PRSU4 , Cat3, Pld

Electric current flows continuously, supplying power to the safety control unit.

If a person walks on the mat or an object falls on it, this creates a short circuit. The unit's relay coils are no longer supplied with power and the control unit contacts open, cutting off the power supply to the machine (for all mats except CKP IM and CKP SOLO, which operate in reverse).

- Options :**
- ☐ AE13KIT, adjusted mounting kit for CKP and RKPE mats (corners + edges)
 - ☐ AE18KIT, adjusted mounting kit suitable for ARMOR mats (corners + edges)
 - ☐ AEC, single aluminium mounting bracket for CKP and RKPE mats
 - ☐ AE13, aluminium fixing strip, length 2.5 m, for CKP and RKPE mats
